

Survey Assistant

Can-Am prides itself in providing our staff with the best survey and mapping technologies available. This includes industry leading hardware and software packages in the field and office along with the training to use them efficiently. We offer a highly competitive salary, comprehensive benefits package, professional development and skills training along with vacation options that recognize previous industry experience.

We have created a fun and inspiring work environment where you are trusted and empowered to do your job. Our managers know that by showing appreciation, you will be motivated to exceed expectations. If you enjoy working independently and being rewarded for creative ideas, you will be a valued member of our team.

We provide opportunities where you can:

- Use new, state-of-the art technology
- Advance your career
- Earn industry leading wages with a generous benefits package
- Be part of a strong and capable team

We are seeking a Survey Assistant based out of Swift Current, Saskatchewan

We are currently seeking an Oilfield Surveyor's Assistant. Safety certification preferred. Experience with both RTK and Total station equipment would be considered an asset, but will train suitable candidate.

Pre-Access drug and alcohol screening is required. Candidates must be able to work oilfield schedules and locations.

Qualified candidates are invited to submit a resume in confidence by to careers@canam.com

We thank all applicants for their interest, however, only those selected for an interview will be contacted.
